HONOLULU, MAY 14, 1872. Sixce our last issue we have had the arrival of the steamer Nevada from Auckland, and the departure of

the steamer Mohongo for San Francisco. Our advices from Anckland are no to April 18th by which we learn that a cargo of sugar from Mauritius and another from Sydney bad been disposed of at

full rates, leaving the market bare of all kinds. We learn that the molasses exported from here to New Zealeand for distillation has turned out well, and we are likely to find quite an outlet for this ar tiple in that direction. We believe that in most sugar growing countries molasses is to some extent made into some kind of spirits. In the West Indies they export the better qualities, and work up the inferior with the skimmings, ac., into rum. This, it is said, will pay the ordinary running expenses of a planta tion, all of which is lost to planters on these Island. The bark Comet arrived yesterday, with San Fran-
